

## Contact people for Walking on Country opportunities

*We list here Synod contacts who may assist with questions about the possibility for a group, congregation or individual to undertake a Walk on Country. In some parts of our nation to undertake a Walk on Country is not straight forward. It might be important to also be aware of what various First Nations organisations are offering. We would encourage all members of the Uniting Church to recognise there is a commercial reality to be faced and First Nations Peoples need to set fees for Walking on Country which support their economic sustainability.*
